About Us

Our mission is to improve the health and well-being of members by offering flexible, inclusive, and tailored health care.

MembersHealth was founded in 2018, to provide everyday people with access to Canada’s top doctors. The idea came about when one of the founders struggled to help his daughter deal with frequent panic attacks late at night. His family doctor had retired, and they couldn’t afford therapy, but he was able to find support through his friends who were doctors. This experience shed light on a gap in the healthcare system that they were determined to fill.

Dr. Donald Jones and Dr. Azhar Malik joined the founder to grow MembersHealth’s team of doctors, specialists, surgeons, and mental health professionals to define a standard of care for a true Patient First Healthcare experience.

Today, we serve over 200,000 members and their families across Canada. These members have embraced our approach to total well-being by utilizing our physical, psychological, and psychosocial support resources.

Our Vision

We envision a healthy and robust Canadian corporate and not-for-profit sectors, where our members can enjoy comprehensive, affordable, and sustainable employee benefit plans, leading to a strong and healthy workforce.
